Children's Services

Children, young people, and their families are at the heart of everything we do. We believe that delivering Children's Services well has the potential to transform the lives of children, young people and their families across Cambridgeshire. We are committed to safeguarding and promoting the welfare of children, young people and their families. We help children, young people and their families to build their resilience and community connections and empower them to find their own solutions to problems. We understand that children and young people are not all the same, but they all deserve outstanding services.

We promote diversity and want a workforce that reflects the population of the communities we serve in Cambridgeshire.

We have identified six practice methodologies that are used within Cambridgeshire to enable practitioners to work with children, young people and their families.

Every case record will contain at minimum the following up to date areas of practice:

- Genograms
- Chronology
- Voice of the Child (incorporated into assessments plans and visits)
- Meaningful and planned visits
- Supervision/Management Oversight – key decision
- Plans or review of plans and Planning

These are what we call **The Big 6**. They form the basis of all of our practice standards, and they are integral to the records we keep.
