Job description and person specification

Enterprise Architect (WEST0337)

Digital, Technology & Innovation, Corporate Services

Thank you for your interest in this role. Our vision at West Northamptonshire Council (WNC) is: 'to make West Northants a great place to live, work, visit and thrive'.

We truly stand by this and work hard every day to make this a reality, and at WNC it's about our people. People who thrive with ambition, bring new ideas, demand better ways of working, care about every detail, and who never shy away from a challenge.

Our culture is a gateway for new experiences. A place to forge new opportunities. To empower you in your career and unite you with like-minded people. When potential is unlocked, talent thrives.

**West
Northamptonshire
Council**

Purpose and impact:

To work with business and technology teams to drive the right strategic technology decisions for WNC. To ensure that WNC's use of technology is proportionate and fit for purpose. To help the formation of the IT Roadmap as part of WNC's Strategy & Architecture team, and to help align the technology strategy to business strategy, in consultation with the service owners.

To create models of business architecture, data architecture, and information systems architecture wherever necessary to support Enterprise Architecture & technology goals. To ensure the proper governance of new technology introduced into the estate, and the application of best practice to architectural decisions.

Accountable to:

Reports to: Head of IT Strategy & Architecture

Responsibilities:

1. Consult with stakeholders in the business, including up to Director level. Work to understand business roadmaps and collaborate with the rest of the Architecture team on the alignment of the IT roadmap with those business roadmaps.
2. Produce Enterprise Architecture artefacts as required to model/document an area of the business and the systems that support it. E.g., Business Capability maps, Data models, Systems diagrams.
3. Take a broad, organisation wide view of technology and business needs, balancing the concerns of disparate stakeholders, and guiding strategic decisions around technology and the application in accordance with what is best for the whole organisation.
4. Contribute to and help maintain the Enterprise repository of information. E.g., systems landscape maps, enterprise data models, enterprise applications catalogue (LeanIX).
5. Collaborate with other Architects to help Enterprise Architecture and Solutions Architecture practices work seamlessly together, as far as possible.
6. Ensure that Solution Architects have sufficient information and support, in terms of briefings, handovers, guidance and check ins, to support the end-to-end Architectural lifecycle.
7. Contribute to, and help enforce, governance. Aid in the production of Architecture Principles, Policies & Rules/Standards.
8. Help foster an open, positive culture within the wider technology department, working with all IT colleagues to explore new ideas and ways of working.
9. Mentor and help grow junior Architects within the team.
10. To maximise personal productivity, minimise duplication and errors; and manage our information efficiently and securely to reduce risk, through effective use of Office 365 and our internal IT systems and applications.

11. Actively challenge and seek to eliminate any directly or indirectly discriminatory practice or behaviours.
12. Demonstrate awareness and understanding of other people's behavioural, physical, social and welfare needs and ensure that reasonable care is taken at all times for the health, safety and welfare of yourself and other persons.

This job description reflects the major tasks to be carried out by the post holder and identifies a level of responsibility at which they will be required to work. In the interests of effective working, the major tasks may be reviewed from time to time to reflect changing needs and circumstances. Such reviews and any consequential changes will be carried out in consultation with the post holder.
